Adlard & Son Ltd, Bartholomew Press, Dorking

Contents

NUMBER 1, JANUARY 1980

1 *C. F. Valcke, P. E. Cleaton-Jones. J. C. Austin, E. Pain and E. Vieira:* The pulpal response to a direct filling resin without an inorganic filler—Isopast
11 *Tore Ramstad, Per W. Norheim and Thomas Eckersberg:* The reliability of clinical evaluation of some characteristics in complete prosthetics
21 *Martin J. Tyas, Rosalind S. Tobias and S. C. Bovis:* An apparatus for the preparation of cavities in the canine teeth of ferrets
27 *Essam El Ghamrawy and J. Runov:* Proximal plaque accumulation with two minor connector designs
31 *Martyn H. Spratley:* A simplified technique for determining the occlusal plane in full denture construction
35 *Gro Wesenberg and Einar Hals:* The *in vitro* effect of a glass ionomer cement on dentine and enamel walls. An electron probe and microradiographic study
43 *Jon Ørstavik and Dag Ørstavik:* An *in vitro* model for studying adsorption of oral streptococci to crown and bridge cements
51 *Ir A. N. Westland:* The energy requirement of the dental cutting process
65 *Olga Grosfeld, Janusz Kretowicz and Jan Brokowski:* The temporomandibular joint in children after breech delivery
73 *I. Gedalia, M. Soldinger, B. Azaz and W. A. Soskolne:* Fluoride concentrations in fissure and cervical enamel of unerupted human teeth
77 *A. Tallgren, B. R. Lang, G. F. Walker and M. M. Ash, Jr:* Roentgen cephalometric analysis of ridge resorption and changes in jaw and occlusal relationships in immediate complete denture wearers

NUMBER 2, MARCH 1980

97 *H. Kroone, T. Maeda, K. Stoltze and N. Brill:* Effect of toothbrush stimulation on temperature of gingival and alveolar mucosae
103 *J. F. McCabe and H. J. Wilson:* The use of differential scanning calorimetry for the evaluation of dental materials. 1. Cements, cavity lining materials and anterior restorative materials
111 *Tore Ramstad and Lars Traaholt:* Destruction of the soft palate and nose by tertiary 'benign' syphilis. A case report
117 *Essam El Ghamrawy:* Plaque recordings as a guide to the prognosis for partial denture treatment
123 *J. Edlund and C. J. Lamm:* Masticatory efficiency
131 *B. Williams and J. A. von Fraunhofer:* Ionic transport through bis-glycidyl methacrylate films

139 *L. V. Christensen:* Some electromyographic parameters of experimental tooth clenching in adult human subjects
147 *J. Runov, H. Kroone, K. Stoltze, T. Maeda, E. El Ghamrawy and N. Brill:* Host response to two different designs of minor connector
155 *C. H. Lloyd and J. N. Anderson:* The strength and fracture toughness of calcium hydroxide preparations
167 *Anne Borgj Tveit:* Fluoride uptake by cavity walls following application of Duraphat around amalgam restorations
175 *Gro Wesenberg and Einar Hals:* The structure of experimental *in vitro* lesions around glass ionomer cement restorations in human teeth

NUMBER 3, MAY 1980

185 *Bengt Ingervall, Bengt Mohlin and Birgit Thilander:* Prevalence of symptoms of functional disturbances of the masticatory system in Swedish men
199 *T. Maeda, H. Kroone, K. Stoltze, J. Runov, E. El Ghamrawy and N. Brill:* Concatenation of variations in plaque formation with variations in crevicular temperature
205 *L. V. Christensen:* Some subjective-experiential parameters of experimental tooth clenching in children
215 *A. R. Grieve and J. C. Glyn Jones:* An *in vitro* study of marginal leakage associated with composite restorations using acidified agar technique
225 *R. G. Jagger:* The surface structure of the temporomandibular joint disk: a scanning electron microscopic study
235 *J. F. McCabe and H. J. Wilson:* The use of differential scanning calorimetry for the evaluation of dental materials. Part II. Denture base materials
245 *R. A. Jackson and W. J. Ralph:* Continuing changes in the contour of the maxillary residual alveolar ridge
249 *Jouko Koskinen, Mikko Paavolainen, Matti Raivio and John Roschier:* Otological manifestations in temporomandibular joint dysfunction
255 *Peter J. Mack:* A theoretical and clincial investigation into the taper achieved on crown and inlay preparations
267 *B. Williams and J. A. von Fraunhofer:* Microporosity in bis-glycidyl methacrylate films
277 Book reviews

NUMBER 4, JULY 1980

281 *L. V. Christensen:* Effects of an occlusal splint on integrated electromyography of masseter muscle in experimental tooth clenching in man
289 *J. A. Hobkirk and A. H. Brook:* The management of patients with severe hypodontia
299 *C. L. Davidson and I. S. Bekke-Hoekstra:* The resistance of superficially sealed enamel to wear and carious attack *in vitro*
307 *Iven Klineberg:* Influences of temporomandibular articular mechanoreceptors on functional jaw movements

319 *B. Bergman, M. Bergman, B. Magnusson, R. Söremark and Y. Toda:* The distribution of nickel in mice. An autoradiographic study
325 *M. Bergman, B. Bergman and R. Söremark:* Tissue accumulation of nickel released due to electrochemical corrosion of non-precious dental casting alloys
331 *Eugene Choy and Dale E. Smith:* The prevalence of temporomandibular joint disturbances in complete denture patients

NUMBER 5, SEPTEMBER 1980

353 *Toshifumi Morimoto and John Christensen:* The effect of maximal mouth opening on dimension discrimination
361 *R. G. Craig and T. K. Wang:* Formulation and evaluation of a hydrophobic composite plastic
369 *C. de Lange, J. R. Bausch and C. L. Davidson:* The curing pattern of photo-initiated dental composites
379 *L. V. Christensen:* Some electromyographic parameters of experimental tooth clenching in children
387 *Rosalind S. Tobias:* Pulpal response to a temporary crown and bridge material in ferret teeth
395 *Noah Stern and Adrian Becker:* Forced eruption: biological and clinical considerations
403 *Gustaf Hellsing:* On the regulation of interincisor bite force in man

NUMBER 6, NOVEMBER 1980

413 *L. V. Christensen:* Cultural, clinical and physiological aspects of pain: a review
423 *P.-O. Glantz and G. D. Stafford:* The effect of some components on the rigidity of mandibular bilateral free and saddle dentures
435 *Eva Lantzman Gabay:* Flow rate, sodium and potassium concentration in mixed saliva of complete denture-wearers
445 *A. Jon Goldberg, Robert G. Craig and Frank E. Filisko:* Tear energy of elastomers for maxillofacial applications
453 *Noriaki Takahashi, Tetsuya Kitagami and Tomio Komori:* Behaviour of teeth under various loading conditions with finite element method
463 *K. C. Young, C. Main, F. C. Gillespie and K. W. Stephen:* Studies on the setting behaviour of sealants using a new acoustic method of determining set
471 *I. Gedalia, H. Baharev and D. Kochavi:* X-ray diffraction and fluoride analysis of enamel powder treated with concentrated phosphoric acid containing sodium fluoride
475 *D. C. Watts, E. C. Combe and E. H. Greener:* Capillary rheology of two composite resin systems
481 *H. Mitani, Y. Inubushi, H. Fujii and E. Mushimoto:* The delay time of tooth vibration signal recorded at facial skin surface
489 Index to Volume 7
